*Fences Decks and Pergolas*

*Dear Darren*

*I feel compelled to write to formally record Jan and my sincere gratitude and thanks for the 'sculpture' you have created in the form of the magnificent deck we now consider to be an integral and profoundly attractive and vital part of our home.*

*We also applaud your diligence and professionalism throughout the construction period together with your innovative ideas, your natural friendliness, your spontaneous willingness to accommodate our suggestions and to offer advice that is founded by your substantial experience and knowledge.*

*As you are aware Darren, Jan and I are 'Art' lovers and we are immensely proud of the dramatic presence of Michelangelo's statue of 'DAVID' in the front foyer of our home but we firmly believe that your beautiful sculpture at the rear of our home actually transcends 'DAVID'.*

*Thank you 'Maestro' for going the extra mile and please feel free to offer any potential customers the opportunity to inspect our treasure.*

*Yours gratefully*

*STAN GIBBON*
